

Love Like You Love

Curt Anderson

I caught myself missing everything around me
More in tune with the photo on my cell phone
Barely heard a single word she was saying
Did it look like I cared?
NoBusy life full of all kinda distraction
Why do I always let it run me over?
I don't wanna be lost, in my own world
Do I care? Do I care?
YeahWhen the lights go down
When I'm finally home
How did I live my life
How will I be knownDid I fight for truth
Did I give enough
When it's said and done
I wanna love like you lovePassed a girl who was trynna hide the tear-fall
I looked away, apathetic to her heartache
I missed the mark, didn't love her like you love me
I didn't try, didn't try
NoI'm feeling bad of all the wasted moments
Wanna get 'em back and make them brilliant
Wake me up and I'll show you what I'd do with
Another chance, another chance
OhWhen the lights go down
When I'm finally home
How did I live my life
How will I be knownDid I fight for truth
Did I give enough
When it's said and done
I wanna love like you loveInto me like a burning light
I hear you calling me to move
Show me the way to make it right
So many things that I can do
Open my eyes and give me sight
I want to live and love for youWhen the lights go down
When I'm finally home
How did I live my life
How will I be knownDid I fight for truth
Did I give enough
When it's said and done

I wanna love like you love
