Eversmile

Good Riddance

Remember when I saw you
Sitting on the rocks yeah
I didn't want to find out
That there was nothing to do
Out here with you
So cold we're going to catch the flu
Got the keys to your car
Everything's so good so far
So do you ever smite
And will you stay awhile with me
It's been about a week now
It feels like a lifetime ago
Have I begun to bore you
Could you at least drop me off
At the show
