

Please Comeback

Nhojj

Im tired of being lonely
Even when youre near
Im tired of always fighting - so tiredThe years have passed by
And yet were still together tonight
Arguing, bickering
Where did all the love we share goPlease come back
Please come back
Love our love
Please come backIm tired of always hiding
Even from myself
Im tired of all the lies weve told us - so tiredThe years have passed by
Yet were still alone tonight
Words of pain, tears of hate
When did all the love we share die
