

# Fight For Me

## Honesty Colors

- Fight for me -

Many stuff has come out on news  
Most stuff I can not get

You are sitting on couch watching TV  
You do nothing

Fight for me  
Fight for me

You are not wise and can't know everything  
Does it go just as you predicted?

It's too easy to predict the fixed stuff

Fight for me  
Fight for me

If you do not do anything  
It does not change anything.

Are you waiting until your turn?  
In that time, no one will help you.

Someone makes a rule.  
They can not understand what I'm Fucking

Alone, but nothing  
You can change by gathering force.

Fight for me  
Fight for me

Do you wish that you give to someone doing it for you?  
Maybe someone thinks it'll do

Someone is laughing. Hiding in the dark  
Your share of the world did exist in the first place

Fight for me  
Fight for me

If you do not do anything  
It does not change anything.

Are you waiting until your turn?  
In that time, no one will help you.
