Sparkler

Fireside

Compared to how you used to feel
Id say that you feel better
The strokes you had, the blackout days
Has finally come to a state of nothing leftEven though youre not around
I think I know just how you feel
Or is it just what I like to do?Maybe what I like to do
Is just go away from everything
But Im afraid I will get even more bored
Then what I am already am around hereEven though youre not around
I think I know just how you feel
Or is it just what I like to do? Yeah
