No Question

Prong

So thrilled, we got you now
You can't, can't break the game
So glad, accept the choice
So glad, you learned the ropes
You learned the ropesTo try so far to go
The end, you'll never knowYou have nothing to follow
The message, a lost cause
And who cares about the lesson
No question of the lossNo question of the loss
No question of the lossSo thrilled, we got you now
You can't, can't break the game
So glad, accept the choice
So glad, you learned the ropesYou have nothing to follow
The message, a lost cause
And who cares about the lesson
No question of the lossNo question of the loss
No question of the loss
No question of the lossYou have nothing to follow
You have nothing to followNo question of the loss
No question of the loss
No question of the loss
