

Inside

Toad the Wet Sprocket

Free my heart to feel again
Free my mind to understand
To run undeterred Pull the blinders from my eyes
Let me see the endless skies
Drown me where I stand
In the beauty of the land And all my life
It lay inside
For all my life Tear this anger from my soul
Wash me clean and leave me whole
Leave me higher Work my hands to make them strong
Lift my arms to carry on
Anywhere I go, to never be alone And all my life
It lay inside
For all my life We were always leaving
Since we start breathing
And running back no wonder
We are torn asunder To give me life
To give me life
