

# Revolution

## The Cult

Pictures of never ending dreams  
I can't see what these images mean  
Locked inside me, can't set the rainbows free  
Like perishing flowers they sag and twist and die  
There's a revolution  
There's a revolution, yeah  
There's a revolution  
There's a revolution  
Sorrow, what does revolution mean to you?  
To say today's like wishing in the wind  
All my beautiful friends they've all gone away  
Like the waves they flow and ebb and die  
There's a revolution  
There's a revolution  
There's a, there's a revolution  
There's a revolution  
There's a revolution  
There's a revolution  
There's a revolution, yeah  
Joy or sorrow, what does revolution mean to you?  
To say today's like wishing in the wind  
All my beautiful friends have all gone away  
Like the waves they flow and ebb and die  
There's a revolution  
There's a revolution  
There's a revolution  
There's a revolution  
Revolution, revolution  
Revolution, revolution  
Revolution, revolution  
Revolution, revolution, yeah
