Pillows

Canja Rave

You know what I miss here the most
Is hanging around coast to coast
And if what they say is true
Than the best we can do
Is go
Cause some days you wanted to die
But the rest was to good to deny
So we lay down to sleep
With the secrets we keep alive
So it's goodbye
To all the best
Put your head on my pillow and give it a rest
Cause you can't run in circles
At everyone elses request
You came to me tired and cold
Worn down and broke from the road
But before this was through
It was all up to you

You know
So it's goodby to the ones we loved
There's a place on my pillow
Should you need to rest
And a sense of adventure
So don't get upset
If you came disappointed
I know that you walked out impressed
Oh my god
There's a million things
I will say to you my friend
If I can
But till than
So goodbye to the ones we loved
Should you need to rest
And a sense of belonging
And that never ends
But I'll always be hoping
That one day I'll see you again
