Last Drag

Traci Lords

You're like a mild head rush
A pain that can kinda feel good
If you know what I meanOoh
You took my breath away, but I don't think it was a good thing, no
Ooh
I'm gonna light you up even without the flameYou were my last drag babyYou're just, like a cigarette
I used to crave you, but I don't anymore
I'm gonna pass, on that cigarette
Cause I kicked that habit when I kicked your ass out the doorStomped out that cigarette
You were my last drag baby
Stomped out that cigarette
You were my last dragThe taste of your love lingers
And man does it taste bitter
Yes it doesOoh
You took my breath away, but I don't think it was a good thing, no
Ooh
I can light you up even without the flameYou're just, like a cigarette
I used to crave you, but I don't anymore
I'm gonna pass, on that cigarette
Cause I kicked that habit when I kicked your ass out the doorYou were my last drag baby
You were my last dragLast drag baby
Uh huh, I've gotta new vice baby
He's so much better for me
Last drag baby
Uh huh, I've got a new vice baby
He's so much better for me
Last drag baby
Uh huh, you were my last drag
Last drag
