

# Graveyard

## Mest

We watch this blackness eat away the cold blue sky  
Terrified, this is our last goodbye  
The dead will walk the streets tonight  
In my nightmare we never last this night  
So fill your lungs this one last time  
Before I wake up to nothing  
Alone in the dark  
Listen, you almost hear my laughing  
Watching as the world ends  
Lying in this six foot grave  
So fill your lungs this one last time  
In my nightmare there is no place to hide  
This plague will take on everyone  
Even the sun rise won't save us from night's fateful cry  
Listen, you almost hear me laughing  
Watching as the world ends  
Never thought it'd end this way  
Lightening, graveyard burning bright now  
Watching as the world ends  
Lying in this six foot grave  
There's vacant space  
There's nothing left but my nightmares  
Ask you to stay, but it's dead here  
Listen, you almost hear me laughing  
Watching as the world ends  
Never thought it'd end this way  
Lightening, graveyard burning bright now  
Watching as the world ends  
Lying in this six foot grave  
There's vacant space
