Long Distance Love Affair

LONG DISTANCE LOVE AFFAIR
WRITER KLAUS MEINEThe only king of rock has gone
Gone to heaven
A star on the way to the stars
Another king of rock is born in '77
Just born to be there when it's dark
'94, '95, if the world is still alive
With the start of the riot of your time
Here's a ticket for a burning train
To set the world in flame
To play the hero's game
The riot of your time
Here's a ticket for the future days
You'll be the guitar king
When your electric plays
The riot of your time
A new generation's mind
The riot of your time
Just to get the message to be more
Than you desire
A star full of life wild and young
The hits from 1994 electric fire
Will burn out the time like the sun
'94, '95, if the world is still alive
With the start of the riot of your time
Here's a ticket for a burning train
To set the world in flame
To play the hero's game
The riot of your time
Here's a ticket for the future days
You'll be the guitar king
When your electric plays
The riot of your time
A new generation's mind
The riot of your time
