On With the Show

Y&T

The lights go down
I take the stage
Living line by line
Know just what to sayBut I never know what it's gonna be
A comedy, tragedy, a mysteryI'll play the fool
I'll play the king
Tonight, I'll play 'em all
There will be no curtain callOn with the show
On with life
On with the dream
I know I'll play it right
On with the show
On with life
If the world is a stage
Then all I've got to say
On with the showThe story's told
It draws you in
You're a star tonight
The show that never endsYou lost your line
Feel the spotlight dim
It's a long, dark fall
The drama just beginsYour star, it fades
The teardrops start to fall
This is the end
Another casting call begins
