

# Need Freedom (feat. Jussie Smollett)

## Empire Cast

[Intro]

Too many guns on the streets  
In my heart, I can't take it no, oh  
Like Stevie said, "Love's in need"  
My heart cries out for Orlando  
Philando, Alton, Sandra, Mike Brown  
Garner, Trayvon, Whyyy?

Too many people gone too soon[Verse 1]

Tell me how this happened  
Where did we go wrong?

Say we stay together if we choose to walk alone

Blood covers our streets

Hatred fills our home

Gotta get this message out before we're dead and gone

[Pre-Hook]

We gotta make it better

Something's gotta change

The world needs your voice just to make it through the rain

When I think of what's goin' on in this world

Ohh it gets me to see my sister not breathe

My sister, my brother here with me[Hook]

Need freedom

Our world is cryin', no more silence, with guns and violence

Need freedom

I can't keep dyin', we're way too quiet, no more silence

Need freedom

Stop this evil, free my people, we're all equal

Need freedom

Our world get's brighter, keep on tryin', keep on fightin' for freedomAs I sit and think about

All that's goin' on

My soul just cries out

Can you tell me please?[Verse 2]

Tell me who's to blame

For causing all this pain

The one's we call to help us turn

They kills us everyday

See war is not the answer

And love is what we need

Take the chains off, break the bondage

Set my people free[Pre-Hook]  
We gotta make it better  
Something's gotta change
