Contradiction (feat. JhenÃ© Aiko)

Mali Music

Whats good boy
...
(contradiction)
We meet again good friend
....
you see the stars come down to meet you
you look like the last time
let a new day come and greet you
...Stuck in your ways, stuck in your mind, stuck all the time
When their out of the room,
especially mine, used to be fine
I swear i was confused, used to be blind
That was a moment in time when i thought of you
Now im on mine
Some say hey to everybody
Yo, tell em I love 'em, its good
this side of the globe
Is everything like it should? Man i dont know
But for everyone that think they should go
If you say that it's over(oh lord, oh lord)
If you say that it's over, i won't die
....
If you say that it's over, i won't die
....
I'll just come back for more
We'll just meet again for sure
If you say that it's over, i won't diewe meet again, aura
Look how they got you where they want you
No need to play pretend
You try so hard but it still haunts you
All in your face, all if time
Running from everything
Run out of faith, now you blind
It's such a shame it's a terrible waste, beautiful mind
That was a moment in time
when i thought of you, now i am fine
No matter what you sayIf you say that it's over, i won't die
(I won't die, I won't die, no,no)
If you say that it's over, I won't die

(I won't die, I won't die)
I'll just come back for more (Aw yeah)
We'll meet again for sure
If you say that it's over, I won't die
(I wont die)You don't have to say it's over
You don't have to say it's through
You don't have to say it's time
Just goes back to you, yeah, just goes back to you
You don't have to say you lost
You should tell the truth
Everything you do in time
Just goes back to you, yeah
just goes back to you
If you say that it's over, I won't die
....
If you say that it's over, I won't die
....
I'll just come back for more
We'll neet again for sure
If you say that it's over, i won't die
....
