

My Lovin Will Give You Something

Angie Stone

Take a little love of money that you keep on I know it's time for you to settle down
Stop foolin around
You keep searching but you don't know
Which corner found,
And telling you life is hard and history
And every move you make is just gamble
So leave your inambitions behind
And give me your love to handle [Chorus]
Take a bit of my love
My lovin' will give you something
Come on into my life
My lovin' will give you something I hope you've been bad to give this love a drag
Yes I do, cause I've been
Give a little my everything
On this you can rely [Chorus] I give you everything Take a little love of money that you keep on
My lovin' will give you something
Take a little love of money that you keep on
My lovin' will give you something [Chorus] Take a little love of money that you keep on
My lovin' will give you something
Take a little love of money that you keep on
My lovin' will give you something
