What You Think About Us

Ashley Gearing

I know how you feel about driving fast,
blasting the radio, Red Sox reruns on TiVo,
I know you hate going to work on Monday morning.
I know what you think about Ford trucks and
Friday night football, staying up all night on a phone call,
I know you said you wanna take it slow, but baby...Tell me what you think about us,
tell me how you feel when we touch,
I just wanna know that you're feeling this
when we kiss, can't get enough.
Tell me what you say to your friends
every time my number comes up.
Are you telling them that we're serious?
I wonder if you're calling it love,
tell me what you think about us.You got big dreams and I hope they come true,
you wanna change the world and I hope you get to
'cause boy, i know you love to make your mama proud.
I know you wanna work hard, make yourself a good life,
settle down some day with a good wife,
but right now i wanna be the only thing on your mind.Tell me what you think about us,
tell me how you feel when we touch,
I just wanna know that you're feeling this
when we kiss, can't get enough.
Tell me what you say to your friends
every time my number comes up.
Are you telling them that we're serious?
I wonder if you're calling it love,
tell me what you think about us.I wonder what you'd say if I said I might
be falling for you right here, tonight,
I wanna be the one that calls you baby.Tell me what you think about us,
tell me how you feel when we touch,
I just wanna know that you're feeling this
when we kiss, can't get enough.
Tell me what you say to your friends
every time my number comes up.
Are you telling them that we're serious?
I wonder if you're calling it love,
tell me what you think about us.
