

Take It and Run

Joe Jonas

Baby , so happy that you
Made it out tonight
With the way you look
Under these lights,
You're the brand new
Owner of my eyes , my eyes
I know , i know many men
Have tried and failed before ,
And baby , i'm pretty sure
That tonight's the night ,
Will change your life ,
Grab my hand . watch us fly So many things
I can't wait to show ya
So many things
I can't wait to show ya
Give me the chance to get to know ya
Say yes before the night is over
Here's our chance ,let's
Take it and run , take it and run
Here's our chance ,let's
Take it and run , take it and run
Take it and run Baby you take my breath
With every step
With every move
How you do it , i have no clue
But girl, i can't lie , i'm so into you
Oh , oh , oh baby
I promise if you give this a try
You'll be more than satisfied
So, open the door , let me in
Brand new life , let's begin So many things
I can't wait to show ya
So many things
I can't wait to show ya
Give me the chance to get to know ya
Say yes before the night is over
So many things
I can't wait to show ya
So many things

I can't wait to show ya
Give me the chance to get to know ya
Say yes before the night is over
Here's our chance ,let's
Take it and run , take it and run
Here's our chance ,let's
Take it and run , take it and run
Here's our chance ,let's
Take it and run , take it and run
Take it and run
Here's our chance ,let's
Take it and run , take it and run
Take it and run
Here's our chance ,let's
Take it and run , take it and run
Take it and runTake it and runSo many things
I can't wait to show ya
So many things
I can't wait to show ya
Give me the chance to get to know ya
Say yes before the night is over
Here's our chance ,let's
Take it and run , take it and run
Here's our chance ,let's
Take it and run , take it and run
Here's our chance ,let's
Take it and run , take it and run
Here's our chance ,let's
Take it and run , take it and run
Take it and run
