

# I've Been Lonely For So Long

Mick Jagger

Won't somebody help me please  
'Cause I've been lonely for so long  
Don't seem like happiness will come along  
I've been lonely for so long  
Don't seem like happiness will come along  
Things ain't quite right over my head  
Everybody seems to be throwing rocks in my bed  
Just can't get ahead in life  
Bad things I do ever turn out right  
Won't somebody help me please  
'Cause I've been lonely for so long  
Don't seem like happiness will come along  
I've been lonely for so long  
Don't seem like happiness will come along  
I lay awake every night  
Tryin' to figure out how to make things right  
There's got to be a better way I know

To shake this monkey because it's making me so  
Won't somebody help me please  
Yes, I know what it like to be lonely  
To have your friends turn their backs on you  
Yes, I've been lonely  
You never know the real meaning of peace and harmony, yeah  
I lay awake every night  
Try to figure out how to make things right  
There's got to be a better way I know  
To shake this monkey because it's making me so  
Won't somebody help me please  
'Cause I've been lonely for so long  
Don't seem like happiness will come along  
I've been lonely for so long  
Don't seem like happiness will come along
