I Can Talk

Two Door Cinema Club

You won't believe what I tell you White coats and clever minds will choose You get a lot from this loose tongue and arrogance It's not appropriate, don't think that this is itNow I can talk, no one gets off I know how you like to Now I can talk, no one gets offNow I can talk, no one gets off I know how you like to Now I can talk, no one gets offA longer sentence brings no more Than one that I had said before It's hard to compromise when I see through your eyes It's just a common view, I guess it's lost on youNow I can talk, no one gets off I know how you like to Now I can talk, no one gets offNow I can talk, no one gets off I know how you like to Now I can talk, no one gets offNow I can talk, no one gets off I know how you like to Now I can talk, no one gets offNow I can talk, no one gets off I know how you like to
