

American Girl

Matthew Sweet

I'm watchin' day time TV
I'm young and I'm restless
 I'm on no sunset beach
I'm burnin' up in here in Texas
 Paranoia on day street
 Not enough to eat
 Too many burgers and these fries
 Are makin' me crazy
 It's kinda strange growin' up here
 Never less safe but don't be afraid
 You gotta take what you get here
 'Cause nobodies gonna change their ways
 Many places to travel in this world
 No matter where I go I'm an American girl
 This Disney World's your underworld
 Try to escape it just face it you American girl
 We all have the same dream
 We wake up on a reality series
 In a taxi cab confessing
 We're having to much 'Sex in the City'
 With our pre-paid cellular phones we call apartment homes
 By the time we're 14 yeah were already grown
 Where we'll end up from here well we don't really care
 Well we tear up every thing, we still love to be here
 Many places to travel in this world
 No matter where I go I'm an American girl
 Is this Disney Worlds your underworld
 Try to escape it just face it you American girl
 Many places to travel in this world
 No matter where I go I'm an American girl
 Is this Disney Worlds your underworld
 Try to escape it just face it you American girl
 From hooters to looters
 We're drowning in beer
 Your ruder I'm cruder
 Your blurred and I'm clear
 Your not helping me here
 'Cause we're living in fear
 I'm not judging you

But I'll push you and push you
Many places to travel in this world
No matter where I go I'm an American girl
Is this Disney Worlds your underworld
Try to escape it just face it you American girl
Many places to travel in this world
No matter where I go I'm an American girl
Is this Disney Worlds your underworld
Try to escape it just face it you American girl
