

Heatseeker

AC/DC

Ooh, we're gettin' ready
Here we go
I'm ready
(Ooh)Getting ready to rock
Getting ready to roll
I'm gonna turn up the heat
I'm gonna fire up the coalI gotta keep that motor turning
I gotta keep that engine clean
I gotta keep those tires burning
I've got the best you've ever seenAnd I'm a heatseeker burning up your town
And I'm a heatseeker, and I, I don't need no life preserver
I don't need no one to hose me down
To hose me downGetting ready to break
Getting ready to go
Get your shoes off and shake
Get your head down and blowYou gotta keep that woman firing
You gotta keep that serpent clean
You gotta make her sound the siren
You gotta hear that lady scream'Cause I'm a heatseeker, charging up the sky
And I'm a heatseeker, I don't, I don't need no life preserver
I don't need no one to hose me down
Don't hose me downAw yeah, here ya go
Ready? Heatseeker!I wanna see you get up and see the whites of your eyes
And I'm a heatseeker, heatseeker, yeah!
I'm gonna measure you up, I'm gonna try you for size
And I'm a heatseekerGotta keep that motor turning
You gotta keep that engine clean
You gotta keep those tires burning
I've got the best you've ever seenAnd I'm a heatseeker and I don't need no life preserver
I don't need no one to hose me down
I'm a heatseeker and I'm a heatseeker
HeatseekerOut on the street feel the heat
