Charge

Splendid

The way you love
Have you got a name for it
Cause I don't understand it
The language is an annoying necessity
And I depend on all the regular things
Got a list tattooed on my memory
Of how our tryst should unfoldI'm falling from the opposite
What good is it
Fight the map with no key attached
My heart's enlarged and I chargeWhat do you say
To a dream that won't go away
Cause I don't know if I can stand it
Forever isn't something you want to be
And I rely on familiar things
Seven days all have special meanings
But you just call it a weekI'm falling from the opposite
What good is it
Fight the map with no key attached
My heart's enlarged and I chargeI'm falling from the opposite
What good is it
Fight the map with no key attached
My heart's enlarged and I chargeThe night is young
And the moon is a mother to both of us
We both understand this
Marriage is an old and tired religion
And I love all the traditional things
Domestic bliss and all that shit
Confusion is a definite directionI'm falling from the opposite
What good is it
Fight the map with no key attached
My heart's enlarged and I chargeI'm falling from the opposite
What good is it
Fight the map with no key attached
My heart's enlarged and I chargeI'm falling from the opposite
What good is it
Fight the map with no key attached
My heart's enlarged and I charge
