It's You

Dolores O'Riordan

It's you, it's you, you know you make me feel better
And I knew, I knew, I knew when I was under the weather
Where did all the time go? Where did all the time go?

It's you, it's you, it's you you know you make me feel better I remember a time when you.

It's you, it's you, it's you, you know you make me feel betterI remember a time when we were small planting seeds, pulling weeds

I remember a time when we were small, we did it all
But tell me where did all the time go, where did all the time go?
It's you, it's you, it's you, you know you make me feel betterIt's you, it's you, you know you make me

And I knew, I knew, I knew when I was under the weather

Where did all the time go? Where did all the time go?

You know you make me feel better I remember driving in the car, our

It's you, it's you, you know you make me feel betterI remember driving in the car, our destiny was never far

feel better

I must have asked ten thousand times, are we there?

But tell me where did all the time go, where did all the time go?

It's you, it's you, you know you make me feel betterI could not wait until I grew

I could not wait until I grewI could not wait until I knew

I could not wait until I knew

I could not wait until I knewI would like to go back to that car when our destiny was never far I would like to go back to that car but I can't

It occurred to me today that maybe I wished those days away
Still it's you, it's you, it's you, you know you make me feel betterWhatever you do, don't wish your days away
Whatever you do, take it easy today, take it easy today
