

Poison

Shiny Toy Guns

I'm going to meet you
I'm going to meet you
I'm going to meet you
I'm going to meet you I'm going to meet you
I'm going to meet you
I'm going to meet you
I'm going to meet you I'm going to meet you
I'm going to meet you
I'm going to meet you
I'm going to meet you
I'm going to meet you Voices are child in sound fades away
For silence is walking
Signs of you will leave What will happen and now the same as you
'Til the end of someone's world
And the cradle says goodbye to yesterday Painfully, I prepare a release
And poison takes me away
Poison takes me away, takes me away Listen, don't cry my child
When you awake
My father's table has set a place for you Contact, with fire full love
As you're to know my days
A season of poison will bring the darkness soon Painfully, I prepare a release
And poison takes me away
Poison takes me away
On angel's wings, you learn to fly
On angel's wings, you learn to fly From this world you left below
I'm going to meet you
I've come to take you home
Mommy, mommy, mommy From this world you left below
I'm going to meet you
I've come to take you home From this world you left below
I'm going to meet you
I've come to take you home Painfully, I prepare a release
And poison takes me away
Poison takes me away
On angel's wings, you learn to fly
On angel's wings, you learn to fly
