

Valerie Leon

Daniel Romano

I really shouldnt oughtta
But I think I kinda gotta
Since the second that I saw ya
I've been weakenin' in the knees
There's a reason for my misery
But my baby's often busy
And we probably shouldn't oughtta
Come a walkin' by the water
Just to talk and get to know ya
For the set to make you fa la la la love me
But it's the same dark as dawnIs he goin' out of town
Or will he always be around?
If we were ever to be found
He'd be a comin' after me
And my baby's got my dough
And she'll let everybody know
And so we probably shouldn't oughtta
Cause I think they mighta saw ya
And they're gonna tell your father
That we're plannin to fa lava
Let me tell you pretty mama
I just really wanna make you fa la la la love me
But it's the same dark as dawnValerie Leon
Tell me what's your favorite song
Cause I haven't heard a sound since you've been around
Valerie LeonWe've been movin mighty slow
Since we let everybody know
That we were gonna make a go of you and me my little pet
But the thrill we knew is gone
Cause everybody played along
And they're so happy for us dear
And we're the couple of the year
I gotta get me outta here
I wish I never got to know ya
And I wish that I could show ya
Just how much I really loathe ya
How I curse the day I made ya fa la la la love me
But it's the same dark as dawn
