

# It's Amazing

Mindy Smith

Baby doll, my baby doll  
You're just fine the way you are  
So what's the matter? Where's the problem?  
They don't love you 'cause they don't know you like I do  
Can you see, it's amazing what you do to me  
Took my heart and made me feel things I never felt before  
It's changing me which direction so certainly  
Shook me up and threw me around, helped me learn to breathe it all in  
Tiger lily, my tiger lily  
You're just wild, you're as wild as they come  
So what's the trouble? Where's the problem?  
You're just a growing beautiful someone  
Can you see, it's amazing what you do to me  
Took my heart and made me feel things I never felt before  
It's changing me which direction so certainly  
Shook me up and threw me around, helped me learn to breathe it all in  
When I was afraid to reach out  
Oh, when I was the one to run  
You came along with a new lease on love  
To show me how it's done  
Can you see, it's amazing what you do to me  
Took my heart and made me feel things I never felt before  
It's changing me which direction so certainly  
Shook me up and threw me around, helped me learn to breathe it all in  
Helped me learn to breathe it all in
