

How Will You Go

Crowded House

Escape is on your mind again
Escape to a far away land
At times it seems there is no end
To long hard nights of drinkingHow will you go
How will you go
Drive through the wind and the rain
Cover it up
Cover it up
I'll find you a shelter to sleep inI fell over on the couch again
But you know not all sleep is wasted
Your dreams are alcohol inspired
I can't find a better way to face itHow will you go
How will you go
Drive through the wind and the rain
Cover it up
Cover it up
I'll find you a shelter to sleep inAnd you know I'll be fine
Just don't ask me how it's going
Gimme time, gimme time
'Cause I want you to see
Round the world, round the world
Is a tangled up necklace of pearlsHow will you go
How will you go
Drive through the wind and the rain
Cover it up
Cover it up
I'll find you a shelter to sleep inHow will you go
How will you go
Drive through the wind and the rain
Cover it up
Cover it up
I'll find you a shelter to sleep in
