Map

Frankmusik

All this time
My instincts were only screaming
But now this time
Ill try my best and start hard listeningYou say you love me like it grows on trees
You play it safe and say youre scares of me
But if Im bad then baby youre much worse
I hope you hear these words.I never
Want to find my way back
I never
Want to find my way back.
Find it back to you
Back to you
I never wanna find my way back
So Ill take you off my map.You stalk me
Until a better man has fallen in your lap
You tried to break me
but Im sure youll find a bigger life
to crashI hope he finds the messages you sent
Those empty words to me you never meant
You can say I was just a little fling
That bought you diamond rings.I never
Want to find my way back
I never
Want to find my way back.
Find it back to you
Back to you
I never wanna find my way back
So Ill take you off my map.Its not that Im lost
I just dont wanna be found
If I see you
I wanna lose your face in the crowdI never
Want to find my way back
I never
Want to find my way back.
Find it back to you
Back to you
I never wanna find my way back
So Ill take you off my map.Take you off my map (x6)Off my map, off my map.
