

# Caress

## Drive Like Jehu

Gracie, we're makin babies, yea, we're barefoot on the tiles / we make 'em  
soft and small and tender, it's the biggest hazard of your gender, gotta  
hold it by yourself / Gracie, hold yourself together, it's bad now but it  
gets better, we're all here to help / everything is swollen, everything is  
swell... everybody's watching, they all wanna see it kick - pleasure is  
your crime, junior is your punishment, happens all the time, everybody rub  
it in. It ain't hard to find fault in any thing you do, we learned to love  
the hard way, you're gonna learn it too. - etc.
