

# I Hope You Have a Nice Day

## Television Personalities

I had a marvellous dream last night  
That white was black and black was white  
If only love and peace could satisfy like war and greed  
Just choose a card  
Take that card  
Remember that card  
Put it back in the pack  
I know what you chose  
Remember that when you strike the pose  
I see more than you can hide  
I wish you had the strength to reach inside  
I wouldn't be surprised  
If Doctor Jekyll and his good side  
Just open your eyes  
And you may find  
It could very well open your mind  
Just try again, because you're a good one  
Whatever you do or say  
I hope you have a nice day  
You make a lot of good things happen  
Don't you say you don't
