Different Drum

Blanca

We are the colors outside of the lines
and we paint a picture, its a one of a kind
Attention, we call attention
Our mission, we direct attention

So let's break the mold
Go off the wall
Be in the well, but not of it
Against the greatless, self the same
We're walkin' out, we're lovers

We're gonna march to the beat of a different drum
We do that left right left to our own rhythm
And we'll keep on movin' cuz we're not afraid to stand out

We're not a copy of tha status quo
We're cut from the cloth of the original
Attention, gotta get your attention
All we need to try to be is who we're made to be

Step one two is what we do
You know they hear us coming
Stomp your feet, make history
