

Let Us Slay

Gwar

Don't give them a sword and then not let them use it
Or send them to war and then make them lose it
This is a bomb, don't want to defuse it
Death is the answer, go forth and choose it
Let us slay
Let them slay, let them slay
Let them slay, let them slay
Let them slay, let them slay
The lust for blood won't go away
Let us slay
Let them slay, let them slay
Let them slay, let them slay
Let them slay, let them slay
It is the era of calamity
And I see this with perfect clarity
And there never was an illusion of parity
I've got no time for your crippled Christ
We have no need for your crippled Christ
And we never lacked for your advice
We don't have to hide our genocide
They'll fear us more when they know the we don't lie
It's gone beyond hatred this time
You love death, yet call it a crime
I twist the dagger that's deep in your guts
I'll put an end to it this time
On your knees, pray
It is your destiny
On your feet, slay
Obedience through slavery
Don't give them a sword and then not let them use it
Or send them to war and then make them lose it
This is a bomb, don't want to defuse it
Death is the answer, death is the answer
Total control
We own your soul
No time for life, time for the knife
Time for the sword, fetus is cored
Total mutation, necro-mutilation
The perfect life form, born for porn

Let us slay
Let them slay, let them slay
Let them slay, let them slay
Let them slay, let them slay
The lust for blood won't go away
Let us slay
Let them slay, let them slay
Let them slay, let them slay
Let them slay, let them slay
We've got no time for your crippled Christ
And we never lacked for your advice
Lie after lie, lie, lie
I do believe its almost time
The crippled Christ, the crippled Christ
The crippled Christ, the crippled Christ
The crippled Christ, the crippled Christ
I do believe it's almost time
You're always calling for the sacrifice
And the body count is very nice
Lie after lie, lie, lie, lie
I do believe it's time do die
Let us slay
