Give It Up

Emily Hearn

When I looked a little bit closer
I started to see the cracks in us
They run down the lines, and we're broken beyond all repair
When I looked a little bit closer
I started to see the look in your eyes
You think I can give you the things that you want, but you're wrong
You're so wrong
And oh, it's head versus heart
And God knows it's hard to face the truth
All in all, we had a good run
But it's time to give it up
Enough is enough, we're bad for each other
And it's time to give it up
I know you're tired, and I'm tired
Gotta call it off
All in all, we had a good run
But it's time to give it up
Give it up
Give it up
When I took a step back
The flaws in my choice were plain to see
I can't carry all this weight
You've gotta make the call before it sends you to your knees
All in all, we had a good run
But it's time to give it up
Enough is enough, we're bad for each other
And it's time to give it up
I know you're tired, and I'm tired
Gotta call it off
All in all, we had a good run
But it's time to give it up
Give it up
Give it up
Oh, we gotta give it up
And oh, it's head versus heart
And God knows it's hard to face the truth
But oh, we were broken from the start
I can't continue holding on to you
All in all, we had a good run

But it's time to give it up
Enough is enough, we're bad for each other
And it's time to give it up
I know you're tired, and I'm tired
Gotta call it off
All in all, we had a good run
But it's time to give it up
Give it up
Oh, we gotta give it up
Oh, we gotta give it up
Oh, we gotta give it up
