

# Did It Again

## Onewerd

I gotta keep running now,  
I gotta keep moving now,  
I can't slow down.  
Everything don't feel so right  
couldn't get much sleep last night  
all I've been feeling is confused  
now everything is such a blur  
I'm losing touch  
Catch me before I  
lose my grip and I'm left wondering why  
I did it again  
oh yeah yeah  
Oh no I've done it again  
will this ride ever end?  
I don't know anymore  
I know it hurts you too  
I'm playing you for a fool  
you don't deserve this hurting you  
Maybe I should get some help

maybe I should help myself  
Catch me before I  
lose my grip and I'm left wondering why  
I did it again  
Catch me before I  
lose my grip and I'm left wondering why  
I did it again  
Are you worried?  
am I on your mind?  
If I fall would you help me back up?  
(Catch me before I fall)  
(Catch me before I fall)  
(Catch me before I fall)  
(Catch me before I fall)  
Catch me before I  
lose my grip and I'm left wondering why  
I did it again  
Catch me before I  
lose my grip and I'm left wondering why

I did it again
