

The Very Next Thing

Casting Crowns

I spend all my time
Dreaming what the future's gonna bring
When all of this time
There's a world passing by right in front of me
Set my sights on tomorrow
While I'm tripping over today Who says big things
Are somewhere off in the distance
I don't want to look back
Just to see all the times that I missed it
I want to be here and now
Starting right here, right now With the very next words of love to be spoken
To the very next heart that's shattered and broken
To the very next way you're gonna use me
Show me the next thing
I'll do the next thing Let my very next breath
Breathe out a song of praise to you
With my very next step
Be on a road that was planned by you
Lord, wherever you're leading me
That's where I want to be With the very next words of love to be spoken
To the very next heart that's shattered and broken
To the very next way you're gonna use me
Show me the next thing
I'll do the next thing Eyes wide open I see you working
All around me you're on the move
Step by step I'm running to meet you
In the next thing, in the next thing Eyes wide open I see you working
All around me you're on the move
Step by step I'm running to meet you
In the next thing With the very next words of love to be spoken
To the very next heart that's shattered and broken
To the very next way you're gonna use me
Show me the next thing Eyes wide open I see you working
All around me you're on the move (I'll do the next thing)
Step by step I'm running to meet you
In the next thing, in the next thing Eyes wide open I see you working
All around me you're on the move (I'll do the next thing)
Step by step I'm running to meet you
In the next thing, in the next thing Eyes wide open I see you working

All around me you're on the move
Step by step I'm running to meet you
In the next thing, in the next thing
