

# The Daze

## Rx Ritalin

These are the Daze my friend  
We're so far from the end  
But we can't wait forever and a day  
    Forever and a Day  
    One for your City  
    Two if you're prissy  
    Three for the raw real homie  
        Rollin' wit' me  
Four's like the voice in my head  
    Getting dizzy  
    Five get it so live  
    The cops come & get me  
        Six for the politrix  
        Seven call the Reverend  
        Eight DNA certain way  
            You a felon  
            Nine feeling fine  
            Even when the sun shady  
            Ten that's a dime  
            Goapele do it crazy  
If you miss me when I'm gone  
Just know riding on a sky plain  
    You never know  
    I could be wrong  
    Sometimes I'm weak  
    When I feel strong  
        Push on  
        Be strong  
        Don't wait  
        Lean on  
        Sometimes  
        Pray on  
        Hold on  
        Because  
These are the Daze  
You gotta go for broke  
I'm taking all my chances  
And if you're scared of transit...  
    Run for cover

Light is fading  
It's getting dark  
The sun is fading  
Oh they told me  
Live today  
Like your gonna live forever  
Tomorrow paves the way  
For the rest of your life  
Even if we lose some along the way  
It's not worth the hate  
No time to hate  
Black prophet  
Still grandma collar poppin  
Do anything for a twenty dollar profit  
They push into yo kitchen til yo momma holla stop it  
If it ain't first class  
Then I'mma try the cockpit  
Had some ups & downs  
Been dumped around  
It's nothing  
"cause we ain't sufferin' now  
For life we lusted  
In God we trust  
But now don't discuss it  
We going for bust  
Hold tight  
It's not  
Too late  
Take it  
Right now  
It's in  
Your hands  
Because  
These are the days we gotta go for broke  
I'm taking all my chances  
And if you're scared of transit...  
Run for cover  
Light is fading  
Its getting dark  
The sun is fading
