This Is Me

Randy Travis

Lately, I get the feeling
There's a feeling that you're holding in
Why do you keep your distance
As close as we've been
Do you think you're silence is saying
There ain't nothing wrong with you
This is me, you're not talking toThis is me
The one who knows you inside out
The one you've leaned on 'til now
Don't you know, I'm still here for you
So what do you think you're doing
Who do you think you're fooling
This is me, you're not talking toYou can run to me
No matter what you're running from
If it's something I'm doing
I'll get it undone
Just don't let me be a stranger
To what you're going through
Hey, this is me you're not talking toThis is me
The one who knows you inside out
The one you've leaned on 'til now
Don't you know, I'm still here for you
So what do you think you're doing
Who do you think you're fooling
This is me you're not talking to
Hey, this is me, you're not talking to
