

Shade of a Shadow

Teitur

Can I call you if Im back in town
Leave a message when Im southbound
Could I please, could I please?
Wont be long till Ill be passing through
Maybe three days, maybe two Could I see you one more time
If its okay, if you dont mind?
Im the shade of a shadow, baby
Been thinking about you tonight
How sweetly you bring light
Youre the ray of the sun
And Im the shade of a shadow For all the letters I never sent
And all the time we havent spent
Could I please, could I please?
Youve always said I play games I know Id lose
Youve always said that's the life I choose Could I see you one more time
If its okay, if you dont mind?
Im the shade of a shadow, baby
Been thinking about you tonight
How sweetly you bring light
Youre the ray of the sun
And Im the shade of a shadow Could I see you one more time
If its okay, if you dont mind?
Im the shade of a shadow, baby
Been thinking about you tonight
How sweetly you bring light
Youre the ray of the sun
And Im the shade of a shadow Can I call you if Im back in town
Leave a message when Im southbound
Could I please, could I please?
Could I please you?
