Not Goin' Down That Road Again

Mudhoney

I'm not goin' down that road again
Can't [tell] too many times
They're gonna follow you my friend
..... you one more timeNot goin' down that road againI'm not goin' down that road again
Ain't nothing new to see
You know I followed it to the very end
Nearly ruined meNot goin' down that road againI'm not goin' down that road again
Learn my lesson .....
I've found the way to heaven
But I've been on the road to hellNot goin' down that road againNot goin' down that road again
Not goin' down that road again
Not goin' down that road again
Not goin' down that road again
