

I Love U In Me

Prince

She took off her dress and I took a peek
While thunder storm played hide and seek
I begged for a kiss, she gave me seven
Our lips touched and it feel like Heaven Everything I want is what she does to me
She don't blush 'cause she's so damned free
When she makin' love it's like surgery
And she say, "Ooh, I love you in me" I promised myself not to come until' she does
And she took both hands and a liar I was
No man in this world could ever hope to last
When my baby down shifts and starts pumpin' fast Everything I want is what she does to me
She don't blush 'cause she's so damned free
When she makin' love it's like surgery
And she say, "Ooh I love you in me"
I love you, I love you in me Our bodies sink in a pool of sweat
It's the kind of love that you never forget
With you honey, I'm the richest in the world
(So rich)
I don't need money 'cause you're my girl Everything I want is what she does to me
She don't blush 'cause she's so damned free
When she makin' love it's like surgery
(Surgery)
And she say, "Ooh I love you in me"
I love you in me Everything I want is what she does to me
You don't blush 'cause she's so damned free
(So free)
When we makin' love it's like surgery
(Yeah)
And she say, "Ooh, I love you in me yeah"
(I love you, yeah)
(Ooh, I love you in me)
