Circular Parade

The Beautiful Mistake

Guilty and degraded. We've bastardized ourselves and lost our purity.
Guilty and degraded. We've bastardized ourselves and lost our purity.Right now you find the words to right your wrongs
Right now you find the words to right your wrongsObjectify the one thing that I wanted more than you
And I look into your eyes
Sitting here as you walk through the door
The sex that I see
It binds my heart, it blinds my eyes so I give in
I don't want this anymore
I've brought you into my, I've brought you here
You're in my circular parade of failure, of failure
(Run away!)Right now you find the words to right your wrongs
Right now you find the words to right your wrongs
