Advisory - the following lyrics contain explicit language:

It's the rock star sound
Miss Unique, I'm the bouncing bomb, can't just get me down
Finger snapping like a thunder clapping
Here comes the whack, so we can bring it backTNT, the killer bee
Use the voice, you made the choice
I got no trophy to introduce
But I'm willing and able to shake it looseIt's gotta be rear locking, show stopping
Sassy, free, sophisticated, super rocking
Name taking, earth quaking, record breaking
No mistaking, it's mind shaking, in the makingIt's a walk and a way of thinking
Shake your hips from left to right
It's a bell and I need to ring it
To spark the dynamiteI have no brain, I'm going down
I guess some heads were made for crowns
Bad to the bone, yeah, bad in the gang
You hold me to Tampa, trying to play my thingI'm a rock star, baby
Miss Unique, I'm a such a lady, lady
In the club with my Grey Goose
Yeah, I'm crazy, I'm his lady
Pretty pink MercedesLow fidelity, rear locking, show stopping
Sassy, fresh, sophisticated, super rocking
Name taking, earth quaking, record breaking
Pass it back so we can take the whackIt's a walk and a way of thinking
Shake your hips from left to right
It's a bell and I need to ring it
To spark the dynamiteYou know you would never be me, oh you know
In the lineup I'm living pretty and beyond
You know what that is paradise
Rock star angel, I'm a lucky strike, yeahTNT, the killer bee
Use the voice, you made the choice
I'm shaking up the underground
'Cause I'm willing and able to break it downIt's money on my mind, money, money on my mind

Zip me up, hon, I think about you all the time
And one thing, Miss Unique is underground
And one thing, Miss Unique is underground, yeahIt's gotta be rear locking, show stopping
Sassy, free, sophisticated super rocking
Name taking, earth quaking, record breaking
No mistaking, it's mind shaking, in the makingIt's a walk and a way of thinking
Shake your hips from left to right
It's a bell and I need to ring it
To spark the dynamiteYou know you would never be me, oh, you know
In the lineup, I'm living pretty and beyond
You know what that is, paradise
Rock star angel, I'm a lucky strikeTNT, the killer bee
Use the voice, you made the choice
I'm shaking up the underground
'Cause I'm willing and able to break it down
