

Ghostcity

Thomas Azier

Ghostcity, stay if you wanna; believe me, why don't we leave this town, can you see it now? Your lips suicide
red, you know you shot me 'cause you wanted me dead, can we leave this town, I'm an eagle now These
different shadows always following me
The cityfoxes are controlling the streets, won't you leave me out here, won't you leave me out here 'Cause we
are,
The only one alive in this town
When everything is going down
We're becoming ghosts as well Dark hair, covered in gold I keep forgetting everything I was taught
Can we leave this town, You believe me now? These different shadows always following me
The cityfoxes are controlling the streets, won't you leave me out here, won't you leave me out here 'Cause we
are,
The only one alive in this town
When everything is going down
We're becoming ghosts as well
