Nothing On You

Tyrese

How many times have I called you,
Checking in when I knew I'd be late,
And how many times did invite you around,
Knowing they'd be all in my face,
So tell why you trippin girl,
About all these different girls,
Is that really what you think of me?
When you got the most important piece of me,
I could be leaving but I'm not,
I realize what I got, can't nobody take your spot
No matter how many places I go,
I will always call you home,
Baby they ain't got nothing on you
I know we be fussin, look it's always something,
But it's nothing on you
If I wanted her I get her,
What you're so much better yeah...
You aint gotta be around,
Baby for me to always hold you down,
they ain't got nothing on you
Nothin nothin...
They aint got nothin on you...
She might look like Halle,
But you always steal the scene,
And I know you think that I'm not ready,
To truly say that you are the one for me,
It's not that I don't think about it,
Girl I might look but I won't touch,
I'll never put that sh*t on us,
Will I ever leave, I doubt it
Baby you stole my heart,
So I can't go too far,
No matter how many places I go,
I will always call you home,

They ain't got nothing on you
I know we be fussin, look it's always something,
But it's nothing on you
If I wanted her I get her,

But you're so much better yeah...
You aint gotta be around,
Baby for me to always hold you down,
They ain't got nothing on you
Nothin nothin...
They aint got nothin on you
Whether its Tina, Michelle or Erica
Ain't none of them ever gonna come between us
Baby I've been there before so I understand
we all make mistakes so don't judge a man
Baby they ain't got nothing on you
I know we be fussin, it's always something,
But it's nothing on you
If I wanted her I get her,
But you're so much better yeah...
You aint gotta be around,
Baby for me to always hold you down,
They ain't got nothing on you
Nothin nothin...
They aint got nothin on you
Baby they ain't got nothing on you
I know we be fussin, it's always something,
But it's nothing on you
If I wanted it her I get her,
But you're so much better yeah...
You aint gotta be around,
Baby for me to always hold you down,
They ain't got nothing on you
