Livin' In A Studio - Lyrics
Freeweights

You heard
A rumor that I've got it
A place where you leave it

All behind
I know
I know that you need it
You won't regret it
'Cause I'm gonna show you good time
And I can't stop waiting
I will do what's right
You know
I promise you baby 'cause I'm

Living in a studio
Party all night long
Piving in a studio
Party all
Party all night long

I know
Your love ain't nothing wrong
I'm your ladder you can climb me all night long
But I keep on feelin' that you've grown to me

Living in a studio
Party all night long
Living in a studio
Party all
Party all night long

Living in my studio
No party no
You won't ever let me go
No party no
Living in my studio

No party no
Ain't no party without you and me

Living in a studio
Party all night long
Living in a studio
Party all
Party all night long
