

Stars and Stripes

Rogue Wave

I never had a false alarm*
Softer than a baby's arm
All hands are right
Never had it cost too much
She was my eagle-eye
Collapsed just fine
And then there being the stars
And stripes
[Chorus:]
Your stars and your stripes and
Your stars and stripes
I wish you'd waited
Your stars and your stripes and
Your stars and stripes
I wish you'd waited
Maybe we're the last in line
Passing all the fast food sign
The dream's alive
When she put her hand in mine
___ was on ___
Imminent decline
While laughing at the stars
[Repeat Chorus:]
Stars and stripes
And you will be one of the stars
But do you really want to?
[Repeat Chorus:]
Your stars and your stripes and
Your stars and stripes
I wish you'd waited
Your stars and your stripes and
Your stripes and stars
I wish you'd waited
I wish you'd waited
I wish you'd waited
