

Run Me Down

The Black Keys

Run me down in the winter, run me down spring

Got to the place, can't do a goddamn thing

But after a while, you ain't gonna run me down anymoreRun me down in the city, run me down on the farm

Run me with your eyes and your heady charm

But after a while, you ain't gonna run me down anymoreI do for you, you don't do for me

You run me down, where you want me to be

But after a while, you ain't gonna run me down anymore
