Just Another Night (1999 Remaster)

Ian Hunter

HmOh no, the fuzz, all in a line

My oh my, I think I'm gonna die

And it's just another night

It's just another nightGot a long black face; Who goes there?

All the reefer madnessput a poor kid in jail

And it's just another night

Yeah, it's just another nightOh take it easy boy or it's DOA

Chrome on my body and a lot of folks say

That it's just another night

Hey, It's just another night

Oh, it's just another night on the other side of lifeHead one's a saw-bones and he wrecked my chair Said "How'd you like to do it in a room downstairs"

And it's just another night

Oh, just another nightHey now, Papa Joe, Don't you pull my hair

All this intrigue, it gets me out of my league

And it's just another night

It's just another nightHis old man spent a fortune just to get him in

But baby boy growed up just as stupid as him

And it's just another night

It's just another night

It's just another night on the other side of lifeJust another night, hung down slow

I don't like the hotel let me go

Hells bells! Give me a chance!

This rock 'n' roller don't want to dance

Just another night

Just another night

Well, it's just another night on the other side of lifeI never felt so bad; Where's my shades?

It's gonna be a long one getting crazed

A head spoutin' noodles said, "What do you plead?"

I said "You ain't got to touch a man to make a man bleed"'N' it's just another night (on the other side)

It's just another night (on the other side)
It's just another night (on the other side)
It's just another night (on the other side)
It's just another night!
