

United Abominations

Megadeth

Within striking distance from Ground Zero sits a smoldering international cauldron
The United "Abominations" as it were
Forged to prevent wars and froze in the face of disaster
And stood silent while terrorization took hostage of the world
In a mire of hypocrisy, the UN ignored sex crimes
by its blue helmets
And enables terrorism, so, in the end, it's failed
And the UN is where our so-called friends get to stab us in the back
And we pay twenty-two percent of their tab to host our enemies here at home
Ambassadors from countries
otherwise known as a catastrophe
Enjoy diplomatic immunity living in Manhattan
While their children are turned into prostitutes
It's a complete and utter disgrace, a blot on the face of humanity
And they get away with it
Poverty in their kitchens
Held hostage by oil-for-food
Yet their own plates are full of the fat of their lands
There's no blood on their hands, right Ko-Jo?
They promised to tell the truth
Without leaving a fingerprint
They will lose the U.N. one way or another
The victim, I fear, will be us, sisters and brothers
The U.N. is right; you can't be any more "un"
Than you are right now; the U.N. is undone
Another mushroom cloud, another smoking gun
The threat is real, the Locust King has come
Don't tell me the truth; I don't like what they've done
It's payback time at the United Abominations
A grave and gathering danger
The decision to attack
Based on secret intelligence; it'll take years
I fear to undo the failings in Iraq
You may bury the bodies
But you can't bury the crimes
Only fools stand up and really lay down their arms
No, not me - not when death lasts forever
The U.N. is right; you can't be any more "un"
Than you are right now; the U.N. is undone
Another mushroom cloud, another smoking gun
The threat is real, the Locust King has come
Don't tell me the truth; I don't like what they've done
It's payback time...
The U.N. is right; you can't be any more "un"
Than you are right now; the U.N. is undone
Another mushroom cloud, another smoking gun

The threat is real, the Locust King has come
The U.N. is right; you can't be any more "un"
Than you are right now; the U.N. is undone
Another mushroom cloud, another smoking gun
The threat is real, the Locust King has come
Don't tell me the truth; I don't like what they've done
It's payback time at the United Abominations
NATO invaded Yugoslavia to end ethnic cleansing, there was no
U.N.

The U.S. invaded Afghanistan after 9/11, there was no U.N.
Saddam Hussein violated seventeen U.N. resolutions
The U.N. was asked to join the war in Iraq
The U.S. invaded, there was no U.N.
Libya bombed a discotheque in Berlin killing Americans, there was no U.N.
And Iran funds Hamas and attacked the U.S. in the seventies, there was no U.N.
Facing war without end, looking into the future, there was no more U.N.
